# INDEX TO VOLUME 8

A

Actinomycosis thoracis (Bisgard), 570

Acute progressive tuberculosis, thoracoplastic collapse of (Meltzer), 627

Adams, W. E. Discussion of symposium on thoracoplasty, 114

Amberson, J. Burns, Jr., and Muschenheim, Carl. Interposition of colon following right phrenic nerve interruption, 638

American Association for Thoracic Surgery, list of members, 234
program, twenty-second annual meeting, 578
twenty-second annual meeting, 126, 350

Andrus, William DeWitt, and Holman, Cranston W. Diagnostic significance of scoliosis in intrathoracic disease, 520

Anesthesia for intrathoracic operations (Bradshaw), 293

Anoxemia resulting from bronchopleural fistula following total pneumonectomy, fatal accidental (Touroff), 531

Apicolysis, extrafascial, with partial thoracoplasty and contralateral oleothorax (Aufses), 615
extrapleural (Judd), 622

Auerbach, Oscar, and Lipstein, Samuel. Bronchopleural fistulas complicating pulmonary tuberculosis, 384, 411

Aufses, Arthur H. Partial thoracoplasty (with extrafascial apicolysis) and contralateral oleothorax, 615

B

Ballon, Harry C., and Guernon, Alfred. Action of sulfanilamide upon growth of tubercle bacillus in vitro, 184
Effect of sulfanilamide upon development of experimental tuberculosis in guinea pig, 188

Banyai, Andrew L., and Jurgens, George H. Mediastinal emphysema as a complication of artificial pneumoperitoneum, 329

Barkley, Howard (with Humphreys, George H., and Moore, Richmond L.). Studies of jugular, carotid, and pulmonary pressures of anesthetized dogs during positive inflation of lungs, 553

Barrett, N. R.: Examination of sputum for malignant cells and particles of malignant growth, 169

Batts, Martin, Jr. Pulmonary artery arising from abdominal aorta, 565

Beck operation (heart) (Lockwood), 598

Beloff, Harry M. Portable pneumothorax apparatus, 464

Berg, Samuel, and Dieffenbach, Richard H. Tuberculous lesion of lung eliminated by suppurative putrid infection, with recovery, 316

Bettman, Ralph B. Discussion of aspiration biopsy tumors of lung (Craver and Binkley), 463
discussion of lobectomy and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 368
discussion of mechanics of pulmonary abscess, pulmonary gangrene and bronchiectasis, with suggested method of treatment (Joannides), 435

Bigger, I. A. Discussion of chonechondrosternon (Ochsner and DeBakey), 469
heart wounds, 239

Binkley, J. Samuel, and Craver, Lloyd F. Aspiration biopsy tumors of lung, 436, 463

Bisgard, J. Dewey. Actinomycosis thoracis—report of two arrested cases, 570
with Hunt, Howard. Instillation of opaque oil into bronchus, 334

Blades, Brian, and Myers, Dan W. Clinical and roentgenologic features of pulmonary abscess located in superior division of lower lobe, 321

Blalock, Alfred. Discussion of heart wounds (Bigger), 252
(with Levy, Sanford E.). Experimental observations on effects of connecting by suture the left main pulmonary artery to systemic circulation, 525

Bohrer, John V., and Lester, Charles W. Late results of lobectomy for bronchiectasis in children, 412, 426
Boland, Frank. Discussion of heart wounds (Bigger), 252
Book reviews, 125
Bradshaw, H. H. Anesthesia for intrathoracic operations, 293
Bronchial plugs, experimental lobectomy using (Rosenthal, Lambert, Van Hazel, and Holinger), 668
Bronchiectasis in children, late results in lobectomy for (Bohrer and Lester), 412
with suggested method of treatment, mechanics of pulmonary abscess, pulmonary gangrene (Joannides), 427
Bronchiogenic carcinoma of more than five years' duration treated by radiotherapy (Harper), 683
Bronchopleural fistulas complicating pulmonary tuberculosis (Auerbach and Lipstein), 384
following total pneumonectomy, fatal accidental anoxemia resulting from (Touroff), 531
Bronchospirometry, catheter for (Gebauer), 674
Bronchus, instillation of opaque oil into (Hunt and Bisgard), 334
two-stage operation for total pneumonectomy in treatment of carcinoma of lung, demonstrating a new technique for closure of (Rienhoff), 254
Brunn, Harold. Discussion of chone-chondrosternon (Ochsner and DeBakey), 469
Butler, Ethan Flagg. Discussion of late results of bronchiectasis in children (Bohrer and Lester), 424
discussion of symposium on thoracoplasty, 122
(with Skinner, A. M., Douglas, Richmond, and Merkel, Carl G.). Myoplastic thoracoplasty, 93

C

Carcinoma, bronchiogenic, of more than five years' duration treated by radiotherapy (Harper), 683
Catheter for bronchospirometry (Gebauer), 674
Chest wound, gunshot, of patient with artificial pneumothorax (Parker), 666
Chone-chondrosternon, report of a case and review of literature (Ochsner and DeBakey), 469
Churchill, Edward D. Discussion of late results of bronchiectasis in children (Bohrer and Lester), 424
Cinefluoroscopic studies of peculiar breathing and chest motion (Pickhardt, Stewart, and Thorburn), 512
Cole, Dean B. Discussion of bronchopleural fistulas complicating pulmonary tuberculosis (Auerbach and Lipstein), 411
Collapse, thoracoplastic, of acute progressive tuberculosis (Meltzer), 627
Colon, interposition of, following right phrenic nerve interruption (Muschenheim and Amberson), 638
Coryllos, Pol N. Discussion of bronchopleural fistulas complicating pulmonary tuberculosis (Auerbach and Lipstein), 410
discussion of cinefluoroscopic studies of peculiar breathing and chest motion (Pickhardt, et al.), 519
discussion of late results of bronchiectasis in children (Bohrer and Lester), 425
discussion of lobectomy and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 367
discussion of symposium on thoracoplasty, 116, 118
in memoriam, 123
(with Ornstein, Geo. G.). Giant tuberculous cavities of lung, 10
Crafoord, Clarence. On the technique of pneumonectomy in man (abst.), 348
Craver, Lloyd F., and Binkley, J. Samuel. Aspiration biopsy tumors of lung, 436
Crush, phrenic, new technique for (Frank), 644

D

Davidson, L. R. Discussion of symposium on thoracoplasty, 117
Davison, T. C. Discussion of chone-chondrosternon (Ochsner and DeBakey), 469
Day, J. C. (with O'Brien, E. J., Tuttle, Wm. M., and O'Connor, J. P.). Extrapleural thoracoplasty in presence of contralateral pneumothorax, 1
DeBakey, Michael, and Ochsner, Alton. Chone-chondrosternon, 469

Decker, Harry R. Discussion of heart wounds (Bigger), 251
Dieffenbach, Richard H., and Berg, Samuel. Tuberculous lesion of lung eliminated by suppurative putrid infection with recovery, 316
Disease of aberrant intrathoracic lung tissue (Freedlander and Gebauer), 581
Dolley, Frank S., and Jones, John C. Lobectomy and pneumonectomy in pulmonary tuberculosis, 351
(with Jones, John C., and Skillen, Jane). Technique of extrapleural pneumothorax, 646
Doran, Wm. T., and Lester, Charles W. Mediastinal teratomata, 309
Douglas, Richmond (with Butler, E. F., Skinner, A. M., and Merkel, Carl G.). Myoplastic thoracoplasty, 93
Drash, Everett C. Discussion of late results of bronchiectasis in children (Bohrer and Lester), 426

E

Effect of scaleniotomy upon size of apical tuberculous cavities (Gibbon), 633
Elkin, Daniel C. Discussion of aspiration biopsy tumors of lung (Craver and Binkley), 462
discussion of heart wounds (Bigger), 251
Emphysema following closed intrapleural pneumolysis, method for preventing and controlling subcutaneous (Goldman), 226
Empyema thoracis by open intercostal drainage, treatment of acute (Weinberg), 195
through short incisions, thoracoplasty for tuberculosis and chronic (Wangensteen), 60
Esophageal hiatus diaphragmatic hernia (Harrington), 127
Evrard, H. (with Hovelacque, A., and Monod, O.). Treize coupes horizontales du thorax. Le Thorax, anatomie medico-chirurgicale (B. Rev.), 125
Experimental lobectomy using bronchial plugs (Rosenthal, Lambert, Van Hazel, and Holinger), 668
Extrapleural apicolysis (Judd), 622

F

Forsee, James H. Hemidiaphragmatic paralysis in treatment of pulmonary tuberculosis, 272
Frank, L. Wallace. New technique for phrenic crush, 644
Freedlander, S. O., and Gebauer, P. W. Disease of aberrant intrathoracic lung tissue, 581

G

Galaree, Jorge A. Las neumectomias totales (abst.), 349
Gale, J. W. Discussion of symposium on thoracoplasty, 121
(with Oatway, W. H., Jr.). Indications, hazards, and results of apicolysis thoracoplasty, 78
Gebauer, Paul W. Catheter for bronchospirometry, 674
discussion of symposium on thoracoplasty, 112
(with Freedlander, S. O.). Disease of aberrant intrathoracic lung tissue, 581
Gibbon, John H., Jr. Immediate effect of scaleniotomy upon size of apical tuberculous cavities, 633
Goldman, Alfred. Method for preventing and controlling subcutaneous emphysema following closed intrapleural pneumolysis, 226
Gordon, Joseph. Discussion of lobectomy and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 368
Graham, Evarts A. Discussion of lobectomy and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 365
discussion of symposium on thoracoplasty, 112
Guernon, Alfred and Ballon, Harry C. Action of sulfanilamide upon growth of tubercle bacillus in vitro, 184
effect of sulfanilamide upon development of experimental tuberculosis in guinea pig, 188
Gunshot and stab wounds, penetrating, of thorax (Steinke), 658
wound of chest of patient with artificial pneumothorax (Parker), 666

H

Haight, Cameron. Discussion of symposium on thoracoplasty, 112
Harper, Fred R. Bronchiogenic carcinoma of more than five years' duration treated by radiotherapy, 683
Harrington, Stuart W. Discussion of lobectomy and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 369
esophageal hiatus diaphragmatic hernia, 127

Head, Jerome R. Discussion of aspiration biopsy tumors of lung (Craver and Binkley), 463
discussion of chone-chondrosternon (Ochsner and DeBakey), 469
discussion of cinefluoroscopic studies of peculiar breathing and chest motion (Pickhardt, et al.), 519
discussion of mechanics of pulmonary abscess, pulmonary gangrene, and bronchiectasis, with suggested method of treatment (Joannides), 435
discussion of symposium on thoracoplasty, 119
extrapleural thoracoplasty, 55
Heart, stab wound of (Strieder), 576
wounds (Bigger), 239
Heise, Fred H., and Steidl, John H. Venous pressure in pulmonary tuberculosis, 539
Holinger, Paul H. (with Rosenthal, Sol Roy, Lambert, Edward H., and Van Hazel, Willard). Experimental lobectomy using bronchial plugs, 668
Holman, Cranston W., and Andrus, William DeWitt. Diagnostic significance of scoliosis in intrathoracic disease, 520
Hovelacque, A. (with Monod, O., and Evrard, H.). Treize coupes horizontales du thorax. Le Thorax, anatomie medico-chirurgicale (B. Rev.), 125
Howard, Leonard W. Patient support for thoracoplasties and other thoracic operations, 613
Humphreys, George H. (with Moore, R. L., and Barkley, Howard). Studies of jugular, carotid, and pulmonary pressures of anesthetized dogs during positive inflation of lungs, 553
Hunt, Howard B., and Bisgard, J. Dewey. Instillation of opaque oil into bronchus, 334

I

Immediate effect of scaleniotomy upon size of apical tuberculous cavities (Gibbon), 633
Interposition of colon following right phrenic nerve interruption (Muschenheim and Amberson), 638
Intrathoracic operations, anesthesia for (Bradshaw), 293

J

Janes, Robert. Discussion of late results of bronchiectasis in children (Bohrer and Lester), 425
Janes, Robert—Cont'd
discussion of lobectomy and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 366
Joannides, Minas. Mechanics of pulmonary abscess, pulmonary gangrene, and bronchiectasis, with a suggested method of treatment, 427, 435
Jones, John C., and Dolley, Frank S. Lobectomy and pneumonectomy in pulmonary tuberculosis, 351
discussion of lobectomy and pneumonectomy in pulmonary tuberculosis, 369
(with Dolley, Frank S., and Skillen, Jane). Technique of extrapleural pneumothorax, 646
Judd, Archibald R. Extrapleural apicolysis, 622
unusual complication occurring during thoracoplasty, 340
Jurgens, Geo. H., and Banyai, Andrew L. Mediastinal emphysema as complication of artificial pneumoperitoneum, 329

L

Lambert, Edward H. (with Van Hazel, Willard, Rosenthal, Sol Roy, and Holinger, Paul H.). Experimental lobectomy using bronchial plugs, 668
Leahy, L. J. Discussion of late results of bronchiectasis in children (Bohrer and Lester), 423
Leeteh, Henry W. Unusual accident occurring in closed intrapleural pneumolysis, 230
Lemon, Willis S. Formation and development of primary tubercle in lung, 371
Lester, Chas. W., and Doran, Wm. T. Mediastinal teratomata, 309
(with Bohrer, John V.). Late results of lobectomy for bronchiectasis in children, 412, 422
Levy, Sanford E., and Blalock, Alfred. Experimental observations on effects of connecting by suture the left main pulmonary artery to systemic circulation, 525
Lipstein, Samuel, and Auerbach, Oscar. Bronchopleural fistulas complicating pulmonary tuberculosis, 384
Lobectomy, and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 351
experimental, using bronchial plugs (Rosenthal, Lambert, Van Hazel, and Holinger), 668

Lobectomy—Cont'd
for bronchiectasis in children, late results of (Bohrer and Lester), 412
practical points in (Sarot), 300
Lockwood, Ambrose L. Beck operation (heart), 598
Lung, formation and development of primary tubercle in (Lemon), 371
giant tuberculous cavities of (Coryllos and Ornstein), 10
tissue, disease of aberrant intrathoracic (Freedlander and Gebauer), 581
Lungs, studies of jugular, carotid, and pulmonary pressure of anesthetized dogs during positive inflation of (Humphreys, Moore, and Barkley), 553
Lymph glands, tuberculosis of lymphatic drainage of pleura (Van Hazel), 219

M

Maier, Herbert C. Effect of pneumothorax on rate of pleural absorption of fluids, 283
Meade, Richard H., Jr. Discussion of chone-chondrosternon (Ochsner and DeBakey), 469
Mediastinal emphysema as complication of artificial pneumoperitoneum (Banyai and Jurgens), 329
Meltzer, Herbert. Thoracoplastic collapse of acute progressive tuberculosis, 627
Mendlowitz, M. Experimental pulmonary embolism, 204
Merkel, Carl G. (with Butler, E. F., Skinner, A. M., and Douglas, Richmond). Myoplastic thoracoplasty, 93
Meyer, Herbert Willy. Discussion of symposium on thoracoplasty, 110
Monod, O. Technique, indications and maintenance of extrapleural pneumothorax, 150
(with Hovelacque, A., and Evrard, H.). Treize coupes horizontales du thorax. Le Thorax, anatomie medico-chirurgicale (B. Rev.), 125
Moore, Julian A. Discussion of intrapleural pneumolysis (Leetch), 233
Moore, Richmond L. (with Humphreys, Geo. H., and Barkley, Howard). Studies of jugular, carotid, and pulmonary pressures of anesthetized dogs during positive inflation of lungs, 553
Muschenheim, Carl, and Amberson, J. Burns, Jr. Interposition of colon following right phrenic nerve interruption, 638
Myers, Dan W., and Blades, Brian. Clinical and roentgenologic features of pulmonary abscess located in superior division of lower lobes, 321

N

Nerve, right phrenic, interruption, interposition of colon following (Muschenheim and Amberson), 638
Nerves, intercostal, treatment of pulmonary tuberculosis by temporary elimination of number of (Torek) 607
Neumectomias totales (Galarce) (abst), 349
New technique for phrenic crush (Frank), 644

O

Oatway, W. H., Jr., and Gale, J. W. Discussion of symposium on thoracoplasty, 114
indications, hazards, and results of apicolysis thoracoplasty, 78
Obituaries:
Coryllos, Pol N., 123
Torek, Franz J. A., 345
Yates, John Lawrence, 466
O'Brien, E. J. (with Tuttle, Wm. M., Day, J. C., and O'Connor, J. P.). Extrapleural thoracoplasty in presence of contralateral pneumothorax, 1
Ochsner, Alton, and DeBakey, Michael. Chone-chondrosternon, 469
O'Connor, J. P. (with O'Brien, E. J., Tuttle, Wm. M., and Day, J. C.). Extrapleural thoracoplasty in presence of contralateral pneumothorax, 1
Oleothorax, contralateral, and partial thoracoplasty (with extrafascial apicolysis (Aufses), 615
Operation, Beck (heart) (Lockwood), 598
Ornstein, George G., and Coryllos, Pol N. Giant tuberculous cavities of lung, 10
Overholt, R. H. Discussion of symposium on thoracoplasty, 115

P

Parker, Edward F., Jr. Gunshot wound of chest of patient with artificial pneumothorax, 666
Partial thoracoplasty (with extrafascial apicolysis) and contralateral oleothorax (Aufses), 615

Patient support for thoracoplasties and other thoracic operations (Howard), 613
Penetrating gunshot and stab wounds of thorax (Steinke), 658
Phrenic crush, new technique for (Frank), 644
Pickhardt, Otto C. (with Stewart, Wm. H., and Thorburn, Grant). Cinefluoroscopic studies of peculiar breathing and chest motion, 512
Plugs, bronchial, experimental lobectomy using (Rosenthal, Lambert Van Hazel, and Holinger), 668
Pneumolysis, method for preventing and controlling subcutaneous emphysema following closed in trapleural (Goldman), 226
unusual accident occurring in closed intrapleural (Leetch), 230
Pneumonectomy, fatal accidental anoxemia resulting from broncho pleural fistula following total (Touroff), 531
in man, technique of (Crafoord) (abst), 348
in pulmonary tuberculosis, lobectomy (Jones and Dolley), 351
in treatment of carcinoma of lung demonstrating new technique for closure of bronchus, two-stage operation for total (Rienhoff), 254
Pneumoperitoneum, mediastinal emphysema as complication of artificial (Banyai and Jurgens), 329
Pneumothorax, artificial, gunshot wound of chest of patient with (Parker), 666
apparatus, portable (Beloff), 464
extrapleural, technique of (Dolley, Jones, and Skillen), 646
thoracoplasty in presence of contralateral (O'Brien, Tuttle, Day, and O'Connor), 1
on rate of pleural absorption of fluids, effect of (Maier), 283
technique, indications, and maintenance of extrapleural (Monod), 150
Pulmonary abscess located in superior division of lower lobes, clinical and roentgenologic features of (Myers and Blades), 321
pulmonary gangrene and bronchiectasis with suggested method of treatment, mechanics of (Joannides), 427
artery arising from abdominal aorta (Batts), 565
Pulmonary artery—Cont'd
to systemic circulation, experimental observations on effects of connecting by suture the left main (Levy and Blalock), 525
embolism, experimental (Mendlowitz), 204
pressures of anesthetized dogs during positive inflation of lungs, studies of jugular, carotid (Humphreys, Moore, and Barkley), 553
tuberculosis, treatment of, by temporary elimination of number of intercostal nerves (Torek), 607

R

Radiotherapy treatment of bronchiogenic carcinoma of more than five years' duration (Harper), 683
Rienhoff, William Francis. Two-stage operation for total pneumonectomy in treatment of carcinoma of lung, demonstrating new technique for closure of bronchus, 254
Rosenthal, Sol Roy (with Lambert, Edward H., Van Hazel, Willard, and Holinger, Paul H.). Experimental lobectomy using bronchial plugs, 668

S

Sandison, Calvin. Discussion of chonechondrosternon (Ochsner and DeBakey), 469
Sarot, Irving A. Practical points in lobectomy, 300
Scaleniotomy, immediate effect of, upon size of apical tuberculous cavities (Gibbon), 633
Scoliosis in intrathoracic disease, diagnostic significance of (Andrus and Holman), 520
Shipman, Sidney. Discussion of lobectomy and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 366
Singer, J. J. Discussion of aspiration biopsy tumors of lung (Craver and Binkley), 462
discussion of late results of bronchiectasis in children (Bohrer and Lester), 425
discussion of symposium on thoracoplasty, 114, 117
Size of apical tuberculous cavities, immediate effect of scaleniotomy on (Gibbon), 633

Skillen, Jane (with Dolley, Frank S., and Jones, John C.). Technique of extrapleural pneumothorax, 646
Skinner, A. M. (with Butler, E. F., Douglas, Richmond, and Merkel, Carl G.). Myoplastic thoracoplasty, 93
Smith, J. Discussion of bronchpleural fistulas complicating pulmonary tuberculosis (Auerbach and Lipstein), 410
Sputum, examination for malignant cells and particles of malignant growth (Barrett), 169
Steele, John D., Jr. Thoracoplasty brace, 342
Steidl, John H., and Heise, Fred H. Venous pressure in pulmonary tuberculosis, 539
Steinke, Carl R. Penetrating gunshot and stab wounds of thorax, 658
Stewart, Wm. H. (with Pickhardt, Otto C., and Thorburn, Grant). Cinefluoroscopic studies of peculiar breathing and chest motion, 512
Strieder, John W. Discussion of mechanics of pulmonary abscess, pulmonary gangrene, and bronchiectasis with a suggested method of treatment (Joannides), 434
  stab wound of heart, 576
Sulfanilamide upon development of experimental tuberculosis in guinea pig, effect of (Ballon and Guernon), 188
  upon growth of tubercle bacillus in vitro, the action of (Ballon and Guernon), 184
Support, patient, for thoracoplasties and other thoracic operations (Howard), 613
Systemic circulation, experimental observations on effects of connecting by suture the left main pulmonary artery to (Levy and Blalock), 525

T

Technique, new, for phrenic crush (Frank), 644
  of extrapleural pneumothorax (Dolley, Jones, and Skillen), 646
Teratomata, mediastinal (Doran and Lester), 309
Thoracic operations and thoracoplasties, patient support for (Howard), 613
Thoracoplastic collapse of acute progressive tuberculosis (Meltzer), 627
Thoracoplasties and thoracic operations, patient support for (Howard), 613
Thoracoplasty brace (Steele), 342
  extrapleural (Head), 55
  for tuberculosis and chronic empyema through short incisions (Wangensteen), 60
  in presence of contralateral pneumothorax (O'Brien, Tuttle, Day, and O'Connor), 1
  indications, hazards, and results of apicolysis (Gale and Oatway), 78
  myoplastic (Butler, Skinner, Douglas, and Merkel), 93
  partial (with extrafascial apicolysis), and contralateral oleothorax (Aufses), 615
  unusual complication occurring during (Judd), 340
Thorax, penetrating gunshot and stab wounds of (Steinke), 658
Thorburn, Grant (with Pickhardt, Otto C., and Stewart, Wm. H.). Cinefluoroscopic studies of peculiar breathing and chest motion, 512
Tissue, lung, disease of aberrant intrathoracic (Freedlander and Gebauer), 581
Torek, Franz J. A. In memoriam, 345
  treatment of pulmonary tuberculosis by temporary elimination of number of intercostal nerves, 607
Touroff, Arthur S. W. Fatal accidental anoxemia resulting from bronchopleural fistula following total pneumonectomy, 531
Treatment of bronchiogenic carcinoma of more than five years' duration by radiotherapy (Harper), 683
  of pulmonary tuberculosis by temporary elimination of number of intercostal nerves (Torek), 607
Tubercle bacillus in vitro, action of sulfanilamide upon growth of (Ballon and Guernon), 184
  in lung, formation and development of primary (Lemon), 371
Tuberculosis, acute progressive, thoracoplastic collapse (Meltzer), 627
  and chronic empyema through short incisions, thoracoplasty for (Wangensteen), 60
  bronchopleural fistulas complicating pulmonary (Auerbach and Lipstein), 384
  in guinea pig, effect of sulfanilamide upon development of experimental (Ballon and Guernon), 188
  of intercostal lymph glands, lymphatic drainage of pleura (Van Hazel), 219

Tuberculosis—Cont'd
pulmonary, treatment of, by temporary elimination of number of intercostal nerves (Torek), 607
venous pressure in pulmonary (Heise and Steidl), 539
Tuberculous cavities, apical, effect of scaleniotomy upon size of (Gibbon), 633
of lung, giant (Coryllos and Ornstein), 10
lesion of lung eliminated by suppurative putrid infection, with recovery (Berg and Dieffenbach), 316
Tuttle, Wm. M. Discussion of symposium on thoracoplasty, 118
(with O'Brien, E. J., Day, J. C., and O'Connor, J. P.) extrapleural thoracoplasty in presence of contralateral pneumothorax, 1

U

Urquhart, Robert Glen. Discussion of lobectomy and pneumonectomy in pulmonary tuberculosis (Jones and Dolley), 369
discussion of symposium on thoracoplasty, 112
